HEATED IBC INSULATION JACKET

- PVC/SILICONE JACKET
- THERMALLY INSULATED
- ADJUSTABLE FIXING HOOKS
- ADJUSTABLE QUICK RELEASE BUCKLES
- 0-60°C ELECTRONIC THERMOSTAT WITH LED INDICATION
- 4M POWER CABLE

SPECIFICATION

- IBC1-1000W 230V SINGLE CIRCUIT RECOMMENDED FOR FROST PROTECTION OR TEMPERATURE MAINTENANCE

IBC1 heater jackets are designed to wrap around a standard 1000Ltr wire cage intermediate bulk container.

The heater jackets are constructed of a heavy weight PVC outer face and a glass silicone inner face.

Insulated with 25mm mineral fiber .

Featuring heavy duty hanging hooks to aid fitting and adjustable quick release buckles

The heating element is a PTFE insulated spiral wound resistance element with tinned nickel braid for safety.

Control of the heater jacket consists of a 0-60°C electronic thermostat
